

Information on possible health difficulties:

[Asthma and your child | Asthma + Lung UK](#) NHS information site.

At Asthma + Lung UK they listen to people affected by lung conditions to understand their views and needs – and this informs everything they do. At Asthma + Lung UK, they believe that every breath matters - and that the right to breathe freely applies to everybody, regardless of income, age, ethnicity, gender, or background.

www.nhs.uk/conditions/cerebral-palsy NHS information site.

Cerebral palsy is the name for a group of lifelong conditions that affect movement and co-ordination. It's caused by a problem with the brain that develops before, during or soon after birth.

- www.cerebralpalsy.org.uk

Cerebralpalsy.org.uk provides support by offering impartial information on a broad range of subjects that people affected by CP should find useful. As you navigate the site you will find tips, guides and advice available to aid those who are impacted by the condition.

- www.scope.org.uk

They campaign to transform attitudes to disability, tackle injustice and inspire action. They create opportunities and provide information and support that empowers.

- www.nhs.uk/conditions/down-syndrome NHS information site.

- www.downs-syndrome.org.uk

They are a national organisation, committed to improving quality of life for people who have Down's syndrome, promoting their right to be included on a full and equal basis with others.

- www.ndcs.org.uk

The National Deaf Children's Society is the leading charity for deaf children. We're here for every deaf child who needs us – no matter what their level or type of deafness or how they communicate.

- www.rnib.org.uk

If you're the parent of a child with vision impairments or a blind or partially sighted young person they have information and resources on education and learning to support you at every level.

- <https://habilitationviuk.org.uk>

They are the professional body for Habilitation Specialists in the UK, providing leadership and setting professional standards. They aim to support members to help maximise the mobility and independence skills of children and young people with vision impairment. They facilitate and promote research into the field of habilitation and mobility training, promote better education and training of habilitation specialists around the UK and provide information for members and the public about the work they do.
